2015 INFINITI QX60

FROM FASCINATION

U.S. model shown.

A yearning heart can never be still. The Infiniti QX60 captivates with possibility, transforming the 7-passenger crossover with a harmonious connection between expressive design, attention to detail and intuitive technology. Experience luxury made sensory, and desire with unprecedented potential.

U.S. model shown.

POWER REAR LIFTGATE offers three points of operation: from the interior, the Infiniti Intelligent Key or the liftgate itself. Opening or closing only takes a finger's touch. Capability in balance with convenience.

FROM HARMONY

SLIDING SECOND-ROW SEATS go to lengths—sliding 144 mm (5.5 inches) forward and rearward—to tailor legroom in the second or third row. Because comfort is personal to every passenger!

EASY THIRD-ROW ACCESS welcomes your guests with effortless entry to the rear of the cabin, sliding and tilting—child seat in place or absent—to offer a generous opening! An interior should be as accommodating as it is spacious.

U.S. model shown.

INTELLIGENT ALL-WHEEL DRIVE² empowers you with confidence by constantly monitoring wheelspin, automatically adjusting to changing conditions for enhanced traction and control.

HYBRID POWERTRAIN² is designed with emotion in mind, masterfully crafted to maintain the power and dynamic drive of a luxury V6, with a surprising 8.4 L/100 km (34 mpg) on the highway.³

FROM ANTICIPATION

Relish what lies ahead. There's pleasure in seeing it clearly, knowing you're prepared to respond to—or take advantage of—every possibility.

AROUND VIEW® MONITOR^{2,4} gives you a virtual 360° view of your environment while parking. You see your surroundings as though from above for an extraordinary level of awareness.

BACKUP COLLISION INTERVENTION^{2,5} is a visionary technology that extends your awareness and your confidence. It scans the area behind your car, and—as you back up—can warn you if it detects rear cross-traffic and large stationary objects. It can even brake for you to help you avoid them.

U.S. model shown.

FROM DEVOTION

U.S. model shown.

TRI-ZONE AUTOMATIC TEMPERATURE CONTROL indulges every passenger with personal comfort, offering climate controls for three distinct zones.

CLIMATE-CONTROLLED FRONT SEATS² surround you in greater comfort by pushing cool or warm air through the front seats to keep you entirely in your preferred temperature zone. Arrive at your destination refreshed and relaxed.

FROM DEEP

U.S. model shown.

The more passionately you feel about an objective, the more intensely it will draw you in to its fulfillment. Create your perfect moments and surround yourself with every beautiful, harmonious detail.

BOSE® CABIN SURROUND^{®2} envelops you, creating depth and ambiance for a wider, more immersive sound. This unique system delivers music's power from the front, with sound washing through the cabin, as in a live performance.

AMBIANCE

A welcoming and evocative space is measured by its ability to stir your emotions.

6 COUNTRIES | .48 MILLIMETRES

MATCHLESS MATERIALS Glide your hand across the armrest, and your fingertips seem to recognize the instinctively rewarding feel. This is purely intentional. We took one-and-a-half years, surveying people all over the world to quantify the most pleasing tactile feel, then created the perfect materials to match it. With tension and texture that match the depth and spacing of the ridges in your fingerprint, it imbues the surfaces you'll engage most with the perfect touch.

U.S. instrumentation shown.

VISUAL INSPIRATION Welcome all passengers with an uncompromised vision of hospitality. While the sense of openness and light brightens the mood of the cabin, the QX60's signature panoramic moonroof² is grand enough to offer an inspiring view of the sky for the second and third rows.

SAVOUR THE STILLNESS Electronic engine mounts instantaneously adjust the mount damping to ensure exceptional interior tranquility. Using sensory technology, they provide active vibration control, even while the QX60 hybrid engine is idling.²

EVERY BREATH FRESHER AND CLEANER Even the invisible is never overlooked. The Advanced Climate Control System^{2,6} features the innovative Plasmacluster[®] air purifier, which actively cleans the air inside your cabin. It produces positive and negative ions that help prevent odours from sticking to interior materials and even helps suppress mold and viruses. Your interior not only stays fresh, so does your clothing. It works in concert with the Grape Polyphenol Filter, which removes up to 99.5% of allergens from the air coming in from the outside.

ACCOMMODATION

A spacious interior, which easily accommodates the most varied of lifestyles, always conforms, and never constrains.

ABUNDANT SPACE The QX60 provides versatility precisely tailored to the needs of every guest. Its low, wide stance helps maximize head and hip room for all seven passengers. Interior elements like the roof and windshield pillars were tapered and shaped to give the impression of generous space. And the backs of the supportive front seats give rear passengers more legroom.

COMFORT ZONES Because all guests have a personal idea of comfort, tri-zone automatic temperature control offers three distinct climate zones. The driver, front passenger and rear passengers each enjoying their own set of controls. The intelligent system will take it from there, maintaining the climate to each personal setting.

MAXIMIZE VERSATILITY The expansive interior was intelligently designed to adapt its volume to your needs. Optimize your cargo capabilities with 60/40-split second-row seats and 50/50-split third-row seats that fold virtually flat, providing a surface big enough to accommodate the most adventurous packing, so you can feel free to engage in ambitious planning.

PERFORM

On its surface you'll find spacious luxury. At its foundation—the thrilling dynamics of Infiniti Direct Response performance engineering.

ENGINES The true excellence of the QX60's engines lies in the feeling experienced as you drive. The 3.5-litre V6 engine features CVTCS technology to continuously optimize opening of intake valves to make the most of every bit of fuel and every breath it takes, resulting in a stirring 265 HP while also achieving up to 10.3 L/100 km combined.² Meanwhile, the 2.5-litre supercharged four-cylinder engine with Infiniti Direct Response Hybrid[®] defies everything you think about hybrids. It has a combined system power of 250 horsepower that responds with stirring quickness while it achieves a surprising 8.7 L/100 km combined.³

EXCEPTIONALLY SMOOTH The QX60 changes the way you feel power without ever changing gears, thanks to a Continuously Variable Transmission. CVT replaces traditional gears with a continuously adjusting belt, meaning you'll always have the optimum setting for responsive acceleration, fuel efficiency and the feeling of effortless smoothness.

CUSTOMIZE YOUR DRIVE Infiniti Drive Mode Selector allows you to select a driving experience that fits your needs of the moment, with four available modes: Standard, appropriate for everyday conditions; Eco Mode, which increases fuel economy; Sport Mode, which allows for sportier acceleration; and Snow Mode, helping you maintain control and avoid spinning wheels in snowy conditions.

EFFICIENT INVIGORATION No hybrid design is quite like it, and none comes close to matching its emotional intensity. The powerful 15kW electric motor and cutting-edge lithium-ion batteries of the Infiniti Direct Response Hybrid[®] complement the gasoline engine to provide an enhanced driving range, yet when you call for power it accelerates with a quickness that feels heightened, never compromised.²

POWER TO PULL MORE The QX60 is an exceptional combination of luxury and utility, offering up to 2268 kg (5,000 lbs.) of towing capacity.² Its chassis strength and 248 pound-feet of torque offer the capability to move significant loads without much effort.²

LIMITLESS RUSH Acceleration Swell is our vision of power, dedicated to delivering a shape and feel to acceleration. By tuning Infiniti engines to unleash torque over a broader rev range, the force you feel seems to increase the faster you go—building like the rush of a continually rising wave, peaking ever higher. The emotional energy surges in tandem, making Swell feel like a limitless rush more than a momentary thrill.

POWER WHERE YOU NEED IT Intelligent All-Wheel Drive² satisfies both your need for control and desire for performance by intuitively adjusting to driving conditions. By constantly monitoring wheelspin, throttle position and vehicle speed, the system automatically diverts up to 50% of the power to the rear wheels, enhancing traction and control when conditions are compromised. When all-wheel drive is not needed, 100% of the power is channeled to the front wheels.

ASSIST/ENTERTAIN

Infiniti InSuite™ integrates a host of intuitive technologies to simplify tasks and anticipate your needs as they keep you in touch with and in control of your world.

ALL-AROUND AWARENESS The Around View® Monitor with Moving Object Detection^{2,8} and Front and Rear Sonar System^{2,9} gives you exceptional awareness of your environment as you park. You'll see a simulated 360° view from above, showing you clearly the objects detected around your car. And the system will even alert you to moving objects detected in your vicinity. It helps put you intuitively in control of your surroundings, while simultaneously putting you at ease.

U.S. instrumentation shown.

PERSONAL PERFORMANCE With dual 178 mm (7-inch) headrest monitors,² rear-seat passengers can experience their own personal entertainment by playing their own movies or games, even while those in front enjoy their own music.

EASE IN TRAFFIC Intelligent Cruise Control (Full-Speed Range)^{2,10} allows you to choose your desired speed, and slows your vehicle in slowing traffic, going all the way to a complete stop. This visionary feature and the personalized convenience it offers is available with a simple touch of a button.

AUDITORY INDULGENCE Create precisely the mood you desire, everywhere you go. With 15 speakers, including two subwoofers, the Bose® Cabin Surround® sound system² delivers your music with captivating depth and astonishing clarity. You'll also enjoy greater selection: play CDs, stream music from a compatible Bluetooth® device² or SiriusXM Satellite Radio, or connect and control your iPod® via the USB port.^{11,12,13}

EMPOWERING YOUR TOUCH The Infiniti Controller puts intuitive, simple control of your technology systems at your fingertips. Designed to fall naturally within your reach, it allows you to interact via a variety of inputs and with clearly marked buttons and commands. What's more, a single press can bring you from one major system to another.

SPEAK YOUR DESIRE Infiniti Voice Recognition² allows you to set a destination on the navigation system, call a contact from your phone, play an audio track and much more without lifting your hands from the wheel. The system recognizes a wide variety of commands, making your life that much simpler and more elegant.

PROTECTION

The Infiniti Safety Shield® concept—our comprehensive approach to safety—layers technologies to monitor conditions, help you avoid a collision, and help protect you and your passengers if one occurs.

1350 MPa

ULTRA-HIGH
TENSILE STEEL

590 MPa

CONVENTIONAL
STEEL

STRONGER AND LIGHTER Ultra high-strength steel is used to help enhance your safety in the case of a collision. The unique process used to create this material can give it more than twice the tensile strength of conventional steel. Not only does this ultra-strong material add to the vehicle's resiliency, it allows us to make the vehicle lighter overall.

BETTER STABILITY WHILE STOPPING Electronic Brake force Distribution adjusts the amount of brake force applied to the front and rear wheels for improved braking performance. It not only helps the brakes wear more evenly, it reduces front-end “dive” during heavy braking, increasing your directional stability and ability to control the vehicle. The system also detects vehicle-load conditions, and distributes additional brake pressure to the rear brakes as needed.

ALWAYS LOOKING FOR DANGER Intelligent Brake Assist with Forward Collision Warning^{2,14,15} uses a sensor to continuously monitor and analyze your closing speed to the vehicle ahead of you, helping detect an imminent collision. It provides a two-stage warning to alert the driver as the vehicle moves towards impact and—if needed—can automatically engage the brakes to help reduce collision speed and impact. It's a smart precaution in an unpredictable world.

MAINTAINING YOUR LANE The Lane Departure Warning (LDW) System^{2,16} uses a camera to watch for departure from the traveling lane when you haven't signaled, and audibly warns you if it's detected. Then, if drift continues, the Lane Departure Prevention (LDP) System^{2,16} lightly applies selected brakes to help ease your vehicle back into the travel lane. But you never give up control. It's designed to assist, not override.

REVERSE WITH GREATER CONFIDENCE Backup Collision Intervention^{2,5} employs an advanced set of sensors to help detect vehicles approaching from either side as you back up. If a vehicle is detected, the system alerts you—first, a warning light appears, then an audible alarm sounds, followed by gas pedal-force feedback. The system can even intervene by automatically engaging the brakes to help avoid a collision.

U.S. model shown.

PREPARED TO PROTECT Under certain braking conditions or when the Intelligent Brake Assist^{2,14} system is activated without brake pedal input, the Front-seat Pre-Crash Seat Belts² automatically tighten the front seat belts—helping restrain you and helping to maximize the effectiveness of the other occupant protection devices, such as airbags.

ENHANCED PROTECTION Infiniti puts an array of airbags between you and an impact, including dual-stage front supplemental airbags of the Infiniti Advanced Airbag System that adjust inflation rates based on the severity of the crash and seat belt usage. Also featured are front seat-mounted side-impact supplemental airbags and roof-mounted curtain side-impact supplemental airbags.¹⁷

PARTNERS IN THE INTENSE

The pulse races. Seconds split. Victories are won and lost. In Formula One, technology and human ingenuity are pushed to the limit. Yet, success is ultimately a measure of the passion that goes into every invention and is released every lap. This passion has led Infiniti Red Bull Racing to become, in recent years, the most dominant force on track.

Car shown is RB10/2014. Information and images correct at time of printing.

Infiniti is drawn to Formula One racing because it is engineering genius applied purely to creating emotional excitement. A feeling of exhilaration that extends from the track to the fans, to the culture of Formula One, through our partner, Infiniti Red Bull Racing. The heart and determination the team has shown has led them to four Formula One Constructors' World Championships in the last five years.

Our synergistic relationship is one that promises thrilling new performance capabilities for both Formula One and Infiniti vehicles. This exchange of both technology and ideas includes input directly from our Formula One drivers—harnessing their supreme driving senses to ensure every future Infiniti vehicle is as dynamic as possible and ultimately, reinvigorating your drive.

Ultimate luxury is more than perfection. It is the feeling of unrestrained joy that unleashes something special in your heart. We at Infiniti believe there are times when reason should take a backseat and emotion—pure and primal—should be the driver. Tangibles play a part, of course: the sensual, flowing lines; the smell of leather; the visceral roar of the engine. Established in 1989, Infiniti has now grown to include sedans, coupes, convertibles, crossovers and SUVs in its lineup and reaches

across 50 countries worldwide. Infiniti has generated respect as the provocateur brand in the premium category, with a reputation for defying convention and creating irresistible and provocative automobiles, engineered with obsessive attention to detail. Our passion for ultimate precision, exhilarating performance and that exuberant driving experience is also manifested in the partnership that Infiniti established with Red Bull Racing in 2011. All of which contributes to the feeling that to drive an Infiniti is something special.
